Rajnikanth is very approachable. Students can always reach out to him. He genuinely cares about them. I highly recommend his personal mentorship.

— Sai Chaitanya Jadhav
AIR 68, CSE 2024

I have known Rajnikanth over the past 2 years and has seen him right from his starting days of providing mentorship.

What makes his program from others is him providing first hand guidance being a CSE Ranker himself. In addition to this, he always goes the extra mile in everything, right from designing questions to taking care of his mentees.
